BACKEND ENGINEER

Tulkarm, Baqa Ash-Sharqiyya , 0566400296, KharoufMahmoud@gmail.com

linkedin.com/in/mahmoudkharouf | github.com/KhMahmoud

CS Graduate bridging geospatial precision with enterprise software engineering. Experienced in managing complex data-driven field operations, now specializing in building high-performance, multi-tenant full-stack applications using Python, Django.

AREA OF EXPERTISE

- Python · Django · Django REST Framework
- PostgreSQL · REST API Design · Git / GitHub
- GPS / GNSS · ArcGIS · AutoCAD

KEY ACHIEVEMENTS

- **Atlas ERP — Full-Stack Business Management System (Graduation Project) | 2026**
- **Architected a multi-tenant ERP (Django REST + React 19 + PostgreSQL) with isolated tenant schemas, RBAC, and 5 core business modules — deployed and live**

PROFESSIONAL EXPERIENCE

LAND SURVEYOR | Ahmad Al-Ammer

Jun 2020 – Sep 2022

- Managed high-precision geodetic surveys, topographic mapping, and boundary demarcations utilizing GPS and Total Station hardware.
- Processed field spatial data streams and generated technical architectural schematics within AutoCAD and ArcMap.

LAND SURVEYOR | Thafer Al-Qaisi | Tulkarm

Feb 2019 – May 2020

- Drafted rigorous technical compliance reports for foundational infrastructure and regional cadastral development projects.
- Collected, verified, and mapped terrain coordinate features to clear structural boundary disputes.

EDUCATION

2022 – 2026

B.Sc. in Computer Science | Al-Quds Open University

2017 - 2019

Diploma in Land Surveying | Ramallah Training Center (2017 – 2019)

ADDITIONAL INFORMATION

- **Languages:** English Professional Working Proficiency , Native Arabic.
